

Jablanica and Pčinja District Demographic Information

The following tables provide statistical demographic information at the district and municipal level for a range of indicators including population breakdown by education, working population, gender, unemployment rate, national and ethnic origin, life expectancy, adult literacy, educational enrolment, and national income per capita. These tables were compiled by disaggregating national level tables contained in the 2007 publication [Municipalities of Serbia 2006](#) compiled by the Statistical Office of the Republic of Serbia, and the [Human Development Analyses of Serbia](#) report prepared by the Republic Development Bureau.
